

WATER QUESTION WAS WELL AIDED.

Receives Further Consideration at Hands of the Commercial Club.

COL. HOLMES MAKES SPEECH

Finally Decided to Take Steps for the Establishment of a Commission by the Legislature.

The first meeting of the committee of the Commercial club to consider the water question was held last Saturday evening in the parlors of the Commercial club. There was a large attendance, over 40 members of the general committee being present, with Col. E. Holmes as chairman. Senator F. Kearns was also present, and made a few remarks.

Chairman Holmes, in taking the chair, emphasized the situation the city had got into, and urged planning a water system which should supply a population of 250,000; also that coming posterity would be made to bear its share of the expense, as it would reap the full advantages. Col. Holmes advised adopting the meter system with the view of the present reservoir in operation so that by two years the improvements might be well along. The present year's city budget shows that the cost of establishing the meter system, and the property owner could pay an annual rental of \$100,000, the cost of establishing the meter system should be self-sustaining at least, and the smaller property holder should have his water metered at minimum cost, the great manufacturing plants should not be overtaxed; the cost to conduct the system on a liberal scale to be considered. The present rate for the minor consumer, and upon a graduated scale according to quantity is reasonable. But any plan which involves the city's health, and the surface well water is impure, and will do harm.

Quite a list of speakers followed Col. Holmes, including J. A. Silver, J. B. Jones, Geo. A. Lewis, Engineer Kierstead, J. C. McCormick, S. P. Ewing, Geo. S. Nye, C. S. Kinney, F. B. Stephens, Geo. C. Cannon, Senator Kearns, L. C. Keel, and C. P. Overfield. Subdividing the work of investigation was approved, and the following outline as offered by the committee was adopted: The duties of the committee shall be to examine into the reception of the water into the city pipes from the different sources; to examine into the quality of the water, whether it is done in the best practical manner or not, and how the pressure is equalized; to ascertain also the quantity of water available; what improvements are needed to make it more effective and whether or not the claims recommended by the first committee of the council should be put into effect; to ascertain the size of the pipes and whether they are properly proportioned and laid.

On the duties of the committee shall be to ascertain the facts concerning all the agreements made by the City of Salt Lake with the farmers of this county in exchanging water from the Salt Lake and Utah Lake canals; what has been given and what is received. To present a report on the purchase of water from the mattress factory, such reports as to why the city did not get the water it apparently bought.

A committee, the duties of which shall be to make an examination of the creek with a view to opening up the water for the city, and to examine into the body of the creek without loss of water; a report of this committee to include suggestions as to the acquisition of water reservoir sites in the city, with an estimate of the capacity and cost thereof.

A committee, the duties of which shall be to make an investigation similar to the one outlined above on Parley's canyon creek.

A committee, the duties of which shall be to investigate and report upon the water supply of the city, and to examine into the well or sump in the neighborhood which private parties have put in and to ascertain whether or not the same is located on land now owned by the city.

A committee, the duties of which shall be to examine into the artesian water supply, including a report on the volume and quality of the water obtained from the artesian wells at the corner of Liberty Park, and the feasibility of material increase by clearing out these wells and the being of additional ones there or elsewhere.

A committee, the duties of which shall be to ascertain what has become of the water supply that was formerly owned by the Hanauer smelter, and to determine whether or not the same could be had for the city at what cost.

A committee, the duties of which shall be to thoroughly investigate the location of water meters, whether or not the city would derive advantage from the installation of such a system, and whether the system on the whole would be worth its ultimate cost.

A committee, the duties of which shall be to investigate the practicability of the diversion of the waters of the Duchesne river into this valley, and the probable cost of such diversion; the time required for its accomplishment; and to consider as a source of water supply, Utah lake and the best means of conveying the water so stored to the city.

A committee, the duties of which shall be to consider the advisability of drafting a bill creating a board of water commissioners for the City of Salt Lake, and to petition the Legislature to enact such a bill into a law giving this commission the full power over and control of the water owned and controlled by Salt Lake City, and also to report to the committee of the city on the advisability of such a committee.

A committee, the duties of which shall be to receive and consider the reports of all committees appointed; to serve as a general and comprehensive plan for the improvement of the city's water supply, and to submit a report on the city's water supply to the city council, and to petition the Legislature to enact such a bill into a law giving this commission the full power over and control of the water owned and controlled by Salt Lake City, and also to report to the committee of the city on the advisability of such a committee.

A committee, the duties of which shall be to receive and consider the reports of all committees appointed; to serve as a general and comprehensive plan for the improvement of the city's water supply, and to submit a report on the city's water supply to the city council, and to petition the Legislature to enact such a bill into a law giving this commission the full power over and control of the water owned and controlled by Salt Lake City, and also to report to the committee of the city on the advisability of such a committee.

FREE TO MILLIONS.

A Valuable Little Book Sent Free for the Asking.

Medical books are not always interesting reading, especially to people enjoying good health, but as a matter of fact, a knowledge of the human body is as healthy, and even with such, sooner or later sickness must come.

It is also a well established truth that nine-tenths of all diseases originate in the break down of the digestion, a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold.

Stomach weakness shows itself in a score of ways and this little book describes the symptoms and causes and points the way to a cure so simple that anyone can understand and apply.

Thousands have some form of stomach trouble and do not know it. They suffer from indigestion, flatulence, nervousness, insomnia, palpitation, constipation and similar symptoms to some other cause than the true one. Get your digestion right, and you will have the heart trouble, lung trouble, liver disease or nervous debility will rapidly disappear.

This little book treats entirely on the cause and removal of the indigestion and its accompanying ailments. It describes the symptoms of Acid Dyspepsia, Nervous Dyspepsia, Slow Dyspepsia, Anorectic Dyspepsia, Catarrh of Stomach and all affections of the digestive organs in plain language easily understood and the cause removed.

It gives valuable suggestions as to diet, and contains a table giving length of time required to digest various articles of food, something every person with weak digestion should know.

No price is asked, but simply send your name and address plainly written on postal card to the F. A. Stuart Co., Marshall, Mich., requesting a little book on Stomach Disease and it will be sent promptly by return mail.

and his approval of the efforts being made with that end in view. He then offered the following resolution, which was unanimously adopted:

"Resolved, that it is the sense of this committee that the Commercial club should recommend to the city council the employment of a competent corps of engineers consisting of the city engineers and two others, whose duty it shall be to investigate the whole question of securing a permanent water supply for Salt Lake City with estimate of the cost thereof."

The committee adjourned subject to call from the chair.

Chairman Holmes made the following statement of subcommittees last evening in the Commercial club:

On water distribution: Arthur J. Davis, chairman; R. J. Decker, John C. Cutler, Edmund F. Armstrong and John J. Thomas.

On agreements with the farmers of the county: George C. Lambert, chairman; M. A. Daugherty, W. P. Noble, C. E. Ewing, chairman; Simon Bamberger, M. H. Walker, Perry S. Heath and W. M. Butler.

On the water supply of the Hanauer smelter: John N. Stansbury, chairman; D. Wood, H. G. Whitney, F. B. Stephens and M. A. Daugherty.

On Big Cottonwood canyon: A. V. Taylor, chairman; John J. Thomas, E. W. Wilson, W. E. Ware and Aaron Keyser.

On water meters: Spencer Clawson, chairman; A. Richter, John B. Cosgriff, J. B. Jones and James K. Shaw.

On the diversion of the Duchesne river waters: George M. Cannon, chairman; Cleason S. Kinney, David Keith, John C. Cutler and C. C. Goodwin.

On board of water commissioners of Salt Lake City: F. B. Stephens, chairman; O. W. Powers, A. V. Taylor, George M. Cannon and H. G. Whitney.

Executive committee: E. F. Holmes, chairman; Joseph A. Silver, Spencer Clawson, Ezra Thompson and George A. Lowe.

WANTS TO BE A CITY.

Growing and Prosperous Murray Desires to Govern Itself.

A petition signed by several hundred citizens of Murray has been presented to the county commissioners asking that the place be incorporated into a city of the third class. The petition will undoubtedly be granted and in a short time the city of Murray will have a municipal organization.

The name of the new city selected by the petitioners is Murray City and its boundary lines are described as commencing at sixteenth South street and running one and one-half miles south and with State street as the center line it runs three-fourths of a mile west and the same distance east, making the city one and one-half miles square.

OCCEN TEAM IS READY TO JOIN.

Junction City Fans Enthusiastic Over Pacific Northwest Scheme.

CLUBS TO MEET THIS WEEK

The Announcement Was Made by Pres. Joyce Yesterday and Local Fans are Very Happy.

Local fans are exceedingly happy. The cause of their joy is the announcement made by President Joyce of the Ogden ball club that team was ready to co-operate with the Salt Lake team in securing places in the Pacific Northwest ball league for next season.

Ever since the subject was first brought to the notice of the fans, they have been waiting anxiously for Ogden to speak up and say what they would do. Ogden kept silent, however, until yesterday when the joyful word was passed around that they would go in with Salt Lake.

President Lucas was here recently, he intended to go to Ogden to talk over the matter, but he did not do so. Yesterday morning he took a trip to the Junction city for that purpose and found the Ogdenites enthusiastic over the proposition.

The probabilities are that representatives from Salt Lake and Ogden will attend the league meeting to be held at Spokane this week when something definite will be done. Great fans are anxious to secure a team for the league, but it is now believed that Salt Lake and Ogden will be the fortunate teams. The past season has been a successful one for the league so far. For instance, yesterday's game at Spokane was a real treat for the fans, and that was what the business, the blow taking him on the point of the jaw.

"As for fighting Flynn, I shall not consider any offer from him or any one else for some time yet. I think a man's rest before he starts to fight again, and I am willing to fight Flynn, but I am not going to rush at him right away. As for going to California, that is something I have not yet decided upon."

There was not a little talk about the fight yesterday among the sports, and although the general verdict was that the contest was a fast one, some seemed to think the fight was fixed. To anybody who saw the go such talk seems peculiar, to say the least, for both men were fighting hammer and tongs, and when Hawkins went down and out there was no fake about it. He was out, and not because he wanted to be.

There was also much talk yesterday about the combination of miserable management and aldermanic greed. One gentleman expressed himself very freely to the effect that the fight was not against the law as long as there were plenty of free tickets, but when an alderman got thrown down everything was different. It appears to be a fool play on both sides. In the first place, the management should have followed the custom in Butte and "given up" something to the officials, especially the referee, being ten dollars, to pay their way in. Hereafter the officials and their friends have taken up all the room in the vicinity of the ring and the most choicest seats.

Then, on the other hand, any official who stops a contest because he is not given a pass to see the same, is a good deal like the man who believes in the enforcement of the law when his breaking fails to pay him anything. It is so said that the gambling houses were running last evening the same as ever. The management of prize fights in Butte hereafter must remember that the old expression about sweetening the palm still holds good in this case. It is not known whether the county officials received tickets, or if they failed to take steps toward stopping the fight because they considered it beneath their dignity.

Nervous?

Easily discouraged? Things look dark? Can't sleep well? Restless and worn out? "Nervous exhaustion," your doctor says.

Ask him if he knows of a better nerve-tonic than Ayer's Sarsaparilla. Sixty years of success.

One great cause of nervousness is constipation. Impurities that should be removed from the system are absorbed into it. One of Ayer's Pills each night, just one, will keep the liver and bowels in a healthy condition.

money that he is willing to post, and that he has a friend who will add \$10,000. Richards will post \$200 forfeit money at Murray's bank when his challenge is accepted.

Richards is ready to fight within three weeks of the time his challenge is taken up, and he will not go over 133 pounds. He says he is now working in one of the mines and can get in shape in some few days. He desires to fight on arm free.

When yesterday's fight showed few signs of the terrific pounding he received at the hands of Hawkins, it was said he was pretty sore and got what he expected, an awful beating. He was very indignant about the report that he showed a streak of yellow, and stated that he fought the best he knew how, and that the terrific pounding he got from Hawkins' left would make any man smart.

It is considered Hawkins to have the greatest left-hand punch of any man in the business," said Clifford yesterday, "and he certainly hit me hard. The report that I put him out with a left punch is untrue. I hit him a right jab, and that was what did the business, the blow taking him on the point of the jaw."

expected that over 100 women will drive off from the first one.

The reason for the large entry list is the fact that the number to qualify has been increased from 75 to 100. The championship is to be held at the Brookline Country Club links, Sept. 30, Oct. 1, 2, 3 and 4.

SOCIAL AND PERSONAL.

Mrs. Pearsall and Miss Davenport give a luncheon at the Alta club next Thursday.

Mr. and Mrs. A. B. Knowlton and Mr. C. B. Horsley will return this week from the coast where they have been spending the past year.

Miss Conway of Nebraska will leave this week for her home. She has been the guest of Mr. and Mrs. George Steiner during the summer.

Mrs. Ira H. Lewis and her mother, Mrs. Smith, have returned from the coast.

Mrs. Amos Siddaway of Teton City, Idaho, is in the city, visiting with her mother, Mrs. Walter Davidson.

Mrs. M. L. Cunningham of Butte is visiting Mrs. B. F. Bowen at 165 east Brigham street.

Mrs. L. C. Miller has visiting her Miss M. E. Williams of New York.

Mrs. J. C. Miller has issued invitations for an old-fashioned tea to be given in honor of her mother, Mrs. Velle, and her aunt, Miss Williams.

Mr. and Mrs. J. J. Johnson entertained a number of friends at their home on Friday evening, in honor of their mother, Mrs. Sarah A. Furr, who has lately returned from Old Mexico. A very enjoyable time was spent by all present; among whom were Mr. and Mrs. James Thompson, Mr. and Mrs. Joseph Graham, Mr. and Mrs. Ralph Snow, Mr. and Mrs. Adrain Simons, Mr. and Mrs. L. Durant, Mr. and Mrs. Jay Jensen, Mrs. E. Horrocks, Mrs. J. M. Horrocks, Miss Laura Horrocks, Mrs. Ina Hamilton, Miss Hattie Conner, Mrs. Davenport, Miss Edith Dramer, Mrs. Lettie White, Roda Thompson, Adella Horrocks, Sarah Graham, Mrs. Harvey, Mrs. William Graham, Albert Mortenson, Richard Solomon, Joseph Gill and Bert Price.

EDUCATIONAL ITEMS.

State Board Meets and Considers Kane County Misunderstanding.

At the meeting of the state board of education on Saturday night a matter which has agitated the minds of Kane county teachers for some time past was brought up for discussion. According to the story as related in a personal letter to a member of the board, Joseph L. Horne was elected county superintendent contrary to his wishes and would not qualify. Mrs. Halliday, the present superintendent, held over until her successor was elected. She wanted to be relieved of the office and hence has never felt very friendly toward Mr. Horne since his refusal to qualify.

When the county examinations were held recently, Mr. Horne and family and Miss Anna Sorenson, of Nephi, were in the Grand canyon. Upon their return Mrs. Horne and Miss Sorenson applied to Mrs. Halliday for certificates to teach, which she refused them. She also refused to grant them an examination. Both women have taught in the schools for five years and are entitled to a certificate, but by the actions of Mrs. Halliday, which they claim is nothing but spite work, they are prevented from teaching. Mrs. Horne asks that the board take some action in the matter and grant the certificates.

Supt. Nelson and other members of the board were of the opinion that Mrs. Halliday has not the authority to take such action in the premises, but decided to defer action until Mrs. Halliday could be communicated with and have a chance to defend herself.

Another important matter was discussed by the board. A Weber county teacher applied for a life diploma. The recommendations accompanying the petition not showing that the applicant is a successful teacher, which required by the board before a life diploma is granted, it was decided that the petition should be denied, although the board was willing to grant a certificate for five years.

High school diplomas were granted to Adelbert W. Parrotte and H. D. Travers. A life diploma was granted to A. B. Christensen. Certificates were granted to Josephine Chambers and Lillian Robury. Grammar grade diplomas were granted to R. C. Fowler, Florence S. Horne, Sarah E. McLeod, T. W. Dyches and Miss Q. Harland.

Lingering Summer Colds.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long sojourn like this will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, whooping cough and lung troubles. The children like it. Godde Pitts Drug Co., Corner First South and Main.

A QUIET SUNDAY.

Saloon Men Conclude Voluntary to Obey the Law.

As a result of an agreement entered into by 75 of Salt Lake's saloon men last week, practically all the saloons in the city were closed tight yesterday and there were no occasions for arresting Sunday violators. Not only were the saloons closed, but the blinds, in many instances, were removed from the windows so that the tired policeman on his beat could see into the places. Only three Sunday drunks were taken in by the police. It is claimed that two of them secured their liquor out of town while the third took on his load at home. The one referred to is Dan Keith, a mere boy who was recently released from the State Industrial school at Ogden, and an effort will be made to have him returned to that institution.

The wine rooms at the rear of the saloons were crowded in darkness with the same conditions prevailed all over the city. If any of the thirst parlor were opened at all, it was done later in the evening, but as believed that the law was generally obeyed. The closing is the result of the action taken by the Protective Liquor Dealers last week. They decided that the saloons should be closed and issued a request upon all the saloon men of the city to observe the Sunday closing law faithfully.

After a run on your wheel, rub on your muscles

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much as it is to love the beautiful and pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.
